

Khlopunov Pylyp

Pylyp, on behalf of Andersen and myself, thank you for your contribution to our common cause.

From a technical perspective, Pylyp expanded his skill set by becoming familiar with BrowserStack and gaining practical experience with modern QA tools and workflows. He also demonstrated a strong interest in test automation and continued developing his knowledge in this area while delivering high-quality work in his daily responsibilities.

Pylyp proactively identified areas for improvement, and helped increase the overall quality and reliability of the project. Over time, he showed progress in both the quality and efficiency of his test case design, continuously improving his approach to test coverage and documentation.

Beyond his technical abilities, Pylyp exhibited valuable professional qualities that make him an effective team member. He has positive attitudes and a strong sense of responsibility, works well in collaborative environments, and accepts feedback constructively.

We are confident that Pylyp has the potential to become a valuable member of any development team and recommend him for future opportunities in Quality Assurance and software testing roles.

CEO,
A.Grigoryev
